

# SNOWMAN CHRISTMAS GARLAND CUT OUTS

# SNOWMAN CHRISTMAS GARLAND CUT OUTS

LAST SNOWMAN HEAD HOLE  
IN TOP OF HEAD ONLY!

1. Create a hole in the top and bottom of each snowman head using a needle. The last snowman in the garland only needs a whole in the top of their head.
2. Thread the needle with cotton (any colour you want - white looks quite good with the snowmen).
3. Make sure the thread is the full length you want the hanging garland to be!
4. Knot the end of the thread before you start.
5. Thread all of the snowman heads onto the cotton. Make sure to leave enough thread to tie a loop at the top of the garland to hang it.
